Self-Guided Tour of the New Los Gatos Library is Just an App Away!

Los Gatos, CA. The Los Gatos Library App now has a new feature that guides visitors on a walking tour of the new library. The walking tour includes all the highlights of the new building, starting anywhere and going in either direction. Maps and walking directions lead to selected stops with photos and brief descriptions. “The new library has so many interesting spaces and special features that visitors shouldn’t miss. This app is another way we are serving our customers,” says Linda Dydo, Library Director. To download the FREE Mobile app, look for us in the iPhone App store or the Android marketplace or point your mobile browser to <http://lgpl.boopsie.com/>. In addition to the tour, the Los Gatos Library App allows you to search the catalog, place holds, and download and checkout eBooks.
